*Please file
M/015/040*

I received a copy of Mr. Baker's September 2, 2003, File Memo indicating that according to mine owner David Taylor SITLA does not want the mine site fully reclaimed.

Lest there be any misunderstanding please be advised that SITLA does require full reclamation of the mine site by Miracle Rock Mining & Research. The only exception will be if a new mine operator formally assumes complete responsibility and liability for the remaining mined land disturbance. Meanwhile, please ensure that Miracle Rock Mining & Research is bonded for full reclamation of the mine site. Thank you.

John T. Blake, SITLA
Mineral Resource Specialist
